Best wishes for 2015: a year for starting a forward looking reform of copyright in Europe?

The beginning of the year is always a good time for the best resolutions. 2015 should not be an exception. Let's fire some good resolutions in the new sky!

The European Copyright Society has a wish too: that the European Commission, in particular Mr. Günther Oettinger, Commissioner for Digital Economy and Society, initiates a forward looking and further reaching reform of copyright in the EU - in the form of Union-wide unification of copyright. This is further explained in the attached [Letter to Mr Oettinger.19 Dec. 2014](#).

Let's hope of a bright picture in the new copyright sky! And all other best wishes for 2015!
